COST Action European Network for Argumentation and Public Policy
Analysis (APPLY)

Winter school, Zagreb 2020

Sara Greco (sara.greco@usi.ch)

Question: When you read the assigned pre-readings (from Rigotti/Greco 2019), can you think of a short extract from your empirical data, which you think might be profitably analyzed with argument schemes (and in particular with the AMT)?

Please send the short extract (maximum: 30 lines) to sara.greco@usi.ch by January 7th.

When you send it, please introduce this extract and provide some context: describe your dataset and what you are doing in your research project; and specify why you chose this specific extract (maximum: 30 lines).

These questions are asked in order for you to get the maximum benefits from the winter school.
